Family Planning Services

What are the three eligibility categories of Family Planning Services?

Family Planning Services consists of three eligibility categories, which cover family planning services for eligible clients. These categories are:

1. Family Planning Services as part of medical coverage for Medicaid programs;

2. The Family Planning Only Program for women (see Section D for more information).

3. The TAKE CHARGE Family Planning Program which is a 5-year federal demonstration waiver that began July 2001 (see MAA's TAKE CHARGE Family Planning Supplement).

What is the purpose of Family Planning Services?

The Medical Assistance Administration (MAA) reimburses for covered family planning services and birth control methods provided to eligible clients. The purpose is to assist individuals in:

- Becoming and remaining self-sufficient; and

- Avoiding unintended pregnancy through planning and spacing the birth of their children.

Reimbursement **[Refer to WAC 388-532-140]**

MAA reimburses covered family planning services using the fee schedule contained in this document.

For Healthy Options enrollees who have self-referred to an MAA-approved family planning provider outside their plan, all laboratory services must be billed through the family planning provider.

Provider Requirements [Refer to WAC 388-532-110]

Family planning clinic providers must:

- Be Medicaid providers qualified to provide family planning services;
- Meet the requirements in Chapter 388-502 WAC, Administration of Medical Programs - Provider rules;
- Provide only those services that are within the scope of their licenses;
- Provide medical information and education about all Food & Drug Administration (FDA)-approved prescription birth control methods and over-the-counter birth control supplies to all eligible clients who request such services; and
- Sign a special agreement that allows the provider to bill for family planning laboratory services provided to Healthy Options enrollees through an independent laboratory certified through the Clinical Laboratory Improvements Act (CLIA). Laboratories bill their usual and customary charges. The family planning provider, in turn must claim reimbursement from MAA for the lab fees. When reimbursed, the family planning provider pays the lab(s) only the amount reimbursed by MAA. (There is no need to pay other than what MAA reimbursed for lab fees.)

Client Eligibility

Who is eligible?

Clients presenting Medical IDentification (ID) cards with the following identifiers are eligible for Family Planning Services:

Medical Program Identifier	Medical Program Name

CNP – CHIP	CNP – Children's Health Insurance Program

GAU **No Out of State Care**	General Assistance Unemployable

Healthy Options enrollees may self-refer outside their plan (HMO) or primary care case manager (PCCM) for family planning services to:

- An MAA-approved family planning provider; or
- A Pharmacy.

Send claims directly to MAA for self-referred services.

Note: When a Healthy Options primary care provider (PCP) or PCCM refers a client to your agency for family planning services (e.g., Depo-Provera injection), your agency **must bill the Healthy Options plan directly** for reimbursement for the family planning services.

Family Planning Only Program

What is the purpose of the Family Planning Only program?
[Refer to WAC 388-532-500]

The Family Planning Only (FPO) program provides an additional 10 months of family planning services to eligible women who have just ended a pregnancy or completed a delivery. **This program serves women only.**

When the pregnant woman applies for medical assistance, the Community Services Office (CSO) worker identifies the woman's expected date of delivery. At the end of the 60-day postpartum period, the woman automatically receives an informational flyer and a medical ID card stating *FAMILY PLANNING ONLY*. If her pregnancy ends for any reason other than delivery, she must notify the CSO to receive the special medical ID card.

Who is eligible?

A woman is eligible for FPO if:

- She received medical benefits during her pregnancy; or
- She is determined eligible for a retroactive period covering the end of the pregnancy.

Provider Requirements **[Refer to WAC 388-532-520]**

Providers must:

- Be Medicaid providers qualified to provide family planning services;
- Meet the requirements in Chapter 388-502 WAC, Administration of Medical Programs - Provider rules;
- Provide only those services that are within the scope of their licenses; and
- Provide medical information and education about all Food & Drug Administration (FDA)-approved prescription birth control methods and over-the-counter birth control supplies to all eligible clients who request such services.

What is covered?

The following family planning services are covered under FPO:

- Gynecological exams as medically necessary;
- Food and Drug Administration (FDA) -approved prescription contraception methods as identified in Chapter 388-530 WAC, Pharmacy Services;
- Nonprescription over-the-counter contraceptives, drugs, and supplies as identified in Chapter 388-530 WAC, Pharmacy Services;
- Education in natural family planning and abstinence;
- Sterilization procedure that meets the requirements of WAC 388-531-1550 (1), if it is:
  - ✓ Requested by the client; and
  - ✓ Performed in an appropriate setting for the procedure; and
- Screening and treatment for STD-I when:
  - ✓ Performed in conjunction with a principal diagnosis of family planning; and
  - ✓ Required as part of the client's selected contraceptive method(s).

What is not covered?

Noncovered services for FPO are the same services not covered under Family Planning Services on page D.2.

Reimbursement

MAA limits reimbursement under FPO to visits and services that have a principal purpose diagnosis of family planning. A qualified, licensed medical practitioner must make the diagnosis.

MAA does not reimburse for inpatient services under FPO. However, inpatient costs may be incurred as a result of complications arising from covered family planning services. Providers of inpatient services must submit a complete report of the circumstances and conditions that caused the need for the inpatient services. MAA will then make a determination of the circumstances and the potential payment sources (e.g., the family planning provider, the ancillary service provider(s), and/or MAA).

Billing

What if a provider has more than one provider number?

When your agency has more than one provider number, the following table outlines which number to use for billing Family Planning Services for self-referred Healthy Options enrollees and fee-for-service (FFS) clients.

Type of Service	Self-Referred Healthy Options enrollees	Family Planning Only Program Clients	All Other Eligible Clients
Family Planning	Family Planning number	Family Planning number	Family Planning number
Sexually Transmitted Disease (STD-I)	Family Planning number	Family Planning number or Medical number	Family Planning number or Medical number
Abortion	Medical number	Not covered	Medical number
Other: menopause, preventive care, abnormal pap, precancerous conditions	Refer client to Primary Care Provider	Not covered	Medical number

What is the time limit for billing? [Refer to WAC 388-502-0150]

MAA requires providers to submit an initial claim, be assigned an internal control number (ICN), and adjust all claims in a timely manner. MAA has two timeliness standards: 1) for initial claims; and 2) for resubmitted claims.

- **Initial Claims**

  - ✓ MAA requires providers to submit an **initial claim** to MAA and obtain an ICN within 365 days from any of the following:

    - The date the provider furnishes the service to the eligible client;
    - The date a final fair hearing decision is entered that affects or has an impact on the particular claim;
    - The date a court orders MAA to cover the services; or
    - The date DSHS certifies a client eligible under delayed[1] certification criteria.

[1] **Delayed Certification -** According to WAC 388-500-0005, delayed certification means department approval of a person's eligibility for a covered service made after the established application processing time limits. If, due to delayed certification, the client becomes eligible for a covered service that has already been provided, **the provider must not bill**, demand, collect, or accept payment from the client or anyone on the client's behalf for the service; and **must promptly refund** the total payment received from the client or anyone acting on the client's behalf and then bill MAA for the service.

☞ **Note:** If MAA has recouped a managed care plan's premium, causing the provider to bill MAA, the billing time limit is 365 days from the date the plan recouped the payment from the provider.

✓ MAA may grant exceptions to the 365 day time limit for initial claims when billing delays are caused by either of the following:

- DSHS certification of a client for a retroactive[2] period; or
- The provider proves to MAA's satisfaction that there are other extenuating circumstances.

✓ MAA requires providers to bill known third parties for services. See WAC 388-501-0200 for exceptions. Providers must meet the timely billing standards of the liable third parties, in addition to MAA's billing limits.

- **Resubmitted Claims**

✓ Providers may resubmit, modify, or adjust any timely initial claim, except prescription drug claims, for a period of 36 months from the date of service. Prescription drug claims must be resubmitted, modified, or adjusted within 15 months from the date of service.

☞ **Note:** MAA does not accept any claim for resubmission, modification, or adjustment after the allotted time period listed above. When rebilling, send a copy of the original Remittance and Status Report along with the claim. Be sure to cross out any lines that have already been paid.

- The time periods listed above do not apply to overpayments that the provider must refund to DSHS. After the allotted time periods, a provider may not refund overpayments to MAA by claim adjustment. The provider must refund overpayments to MAA by a negotiable financial instrument such as a bank check.

Eligibility Established After Date of Service but Within the Same Month - If the client becomes eligible for a covered service that has already been provided because the client applied to the department for medical services later in the same month the service was provided (and is made eligible from the first day of the month), **the provider must not bill**, demand, collect, or accept payment from the client or anyone acting on the client's behalf for the service; and **must promptly refund** the total payment received from the client or anyone acting on the client's behalf and then bill MAA for the service.

[2] **Retroactive Certification -** According to WAC 388-500-0005, retroactive period means the three calendar months before the month of application (month in which client applied). If, due to retroactive certification, the client becomes eligible for a covered service that has already been provided, **the provider must not bill**, demand, collect, or accept payment from the client or anyone acting on the client's behalf for any unpaid charges for the service; **and may refund** any payment already received from the client or anyone acting on the client's behalf, and after refunding the payment, the provider may bill MAA for the service.

- The provider, or any agent of the provider, **must not bill a client or a client's estate** when:

  ✓ The provider fails to meet these listed requirements; and
  ✓ MAA does not pay the claim.

What fee should I bill MAA?

Bill MAA your *usual and customary fee* (the fee you bill the general public). MAA's payment will be either your usual and customary fee or MAA's maximum allowable rate, whichever is less.

When can I bill the client?

Please refer to MAA's General Information Booklet for information on billing the client or to WAC 388-502-0160.

Third-Party Liability

You must bill the insurance carrier(s) indicated on the client's DSHS Medical ID card. An insurance carrier's time limit for claim submissions may be different from MAA's. It is your responsibility to meet the insurance carrier's requirements relating to billing time limits, as well as MAA's, prior to any payment by MAA.

You must meet MAA's 365-day billing time limit even if you have not received notification of action from the insurance carrier. If your claims is denied due to any existing third-party liability, refer to the corresponding MAA Remittance and Status Report for insurance information appropriate for the date of service.

If you receive an insurance payment and the carrier pays you less than the maximum amount allowed by MAA, or if you have reason to believe that MAA may make an additional payment:

- Submit a completed claim form to MAA;
- Attach the insurance carrier's statement;
- If rebilling, also attach a copy of the MAA Remittance and Status Report showing the previous denial; or
- If you are rebilling electronically, list the claim number (ICN) of the previous denial in the comments field of the Electronic Media Claim (EMC).

Third-party carrier codes are available on MAA's Web site at http://maa.dshs.wa.gov or by calling the Coordination of Benefits Section at 1-800-562-6136.

What records must be kept? [Refer to WAC 388-502-0020]

Enrolled providers must:

- Keep legible, accurate, and complete charts and records to justify the services provided to each client, including, but not limited to:

  ✓ Patient's name and date of birth;
  ✓ Dates of service(s);
  ✓ Name and title of person performing the service, if other than the billing practitioner;
  ✓ Chief complaint or reason for each visit;
  ✓ Pertinent medical history;
  ✓ Pertinent findings on examination;
  ✓ Medications, equipment, and/or supplies prescribed or provided;
  ✓ Description of treatment (when applicable);
  ✓ Recommendations for additional treatments, procedures, or consultations;
  ✓ X-rays, tests, and results;
  ✓ Plan of treatment and/or care, and outcome; and
  ✓ Specific claims and payments received for services.

- Assure charts are authenticated by the person who gave the order, provided the care, or performed the observation, examination, assessment, treatment or other service to which the entry pertains.

- Make charts and records available to DSHS, its contractors, and the US Department of Health and Human Services, upon their request, for at least six years from the date of service or more if required by federal or state law or regulation.

A provider may contact MAA with questions regarding MAA's programs. However, MAA's response is based solely on the information provided to MAA's representative at the time of inquiry, and in no way exempts a provider from following the laws and rules that govern MAA's programs.
(Refer to WAC 388-502-0020[2])

Sterilization

What is sterilization? [Refer to WAC 388-531-1550(1)]

Sterilization is any medical procedure, treatment, or operation for the purpose of rendering a client permanently incapable of reproducing. This includes vasectomies and tubal ligations.

> ☞ **Note:** MAA does not reimburse for hysterectomies performed solely for the purpose of sterilization. Refer to MAA's Physician-Related Services Billing Instructions for information on hysterectomies.

What are MAA's reimbursement requirements for sterilizations? [Refer to WAC 388-531-1550(2)]

MAA covers sterilization when all of the following apply:

- The client is at least 18 years of age at the time consent is signed;
- The client is a mentally competent individual;
- The client has **voluntarily** given informed consent in accordance with all of the requirements explained under this section as required by CFR 441.258; and
- At least 30 days, but not more than 180 days, have passed between the date the client gave informed consent and the date of the sterilization.

> ☞ **Note:** MAA reimburses providers for sterilizations for managed care clients 18 through 20 years of age under the fee-for-service system.

MAA reimburses providers (e.g., hospitals, anesthesiologists, surgeons, and other attending providers) for the sterilization procedure only when a completed, federally approved Sterilization Consent Form is attached to the claim. MAA reimburses after the procedure is completed.

MAA reimburses providers for epidural anesthesia in excess of the six-hour limit for deliveries if sterilization procedures are performed in conjunction with, or immediately following, a delivery. MAA determines total billable units by:

- Adding the time for the sterilization procedure to the time for the delivery; and
- Determining the total billable units by adding together the delivery base anesthesia units (BAUs), the delivery time, and the sterilization time.

Do not bill the BAUs for the sterilization procedure separately.

Additional Requirements for Sterilization of Mentally Incompetent or Institutionalized Clients

Providers must meet the following additional consent requirements before MAA will reimburse the provider for the sterilization of a mentally incompetent or institutionalized client. MAA requires both of the following to be attached to the claim form:

- A court order; and
- A Sterilization Consent Form signed by the legal guardian.

When does MAA waive the 30-day waiting period?

[WAC 388-531-1550(3)(4)]

MAA waives the 30-day waiting period, **but does require** at least a 72-hour waiting period, for sterilization in the following circumstances:

- At the time of premature delivery, the client gave consent at least 30 days before the *expected* date of delivery. The expected date of delivery must be documented on the consent form.
- For emergency abdominal surgery, the nature of the emergency must be described on the consent form.

MAA waives the 30-day waiting period for sterilization when the client requests that sterilization be performed at the time of delivery, **and** completes a sterilization consent form when one of the following circumstances apply:

- The client became eligible for Medical Assistance during the last month of pregnancy *("NOT ELIGIBLE 30 DAYS BEFORE DELIVERY");* or
- The client did not obtain medical care until the last month of pregnancy *("NO MEDICAL CARE 30 DAYS BEFORE DELIVERY"*); or
- The client was a substance abuser during pregnancy, but is not using alcohol or illegal drugs at the time of delivery. *("NO SUBSTANCE ABUSE AT TIME OF DELIVERY.")*

The provider must note on the HCFA-1500 claim form in field 19 or on the backup documentation, which of the above waiver conditions has been met. REQUIRED LANGUAGE IS SHOWN IN PARENTHESIS. Electronic billers must indicate this information in the *Comments* field.

When does MAA not accept a signed Sterilization Consent Form? [Refer to WAC 388-531-1550(5)(6)]

MAA does not accept a signed Sterilization Consent Form obtained when the client is in any of the following conditions:

- In labor or childbirth;
- Seeking to obtain or obtaining an abortion; or
- Under the influence of alcohol or other substances that affect the client's state of awareness.

Why do I need a DSHS-approved Sterilization Consent Form?

Federal regulations prohibit payment for sterilization procedures until a federally approved and accurately completed Sterilization Consent Form is received. To comply with this requirement, surgeons, anesthesiologists, and assistant surgeons as well as the facility in which the surgery is being performed must obtain a copy of a completed Sterilization Consent Form to attach to their claim. **MAA does not accept any other form**.

MAA will deny a claim for a sterilization procedure received without a Sterilization Consent Form.

MAA will deny a claim with an incomplete or improperly completed Sterilization Consent Form. The claim and completed Sterilization Consent Form are to be submitted to the:

DIVISION OF PROGRAM SUPPORT
PO BOX 9248
OLYMPIA WA 98507-9248

Who completes the Sterilization Consent Form?

- Sections I, II, and III of the Sterilization Consent Form are completed by the client, interpreter (if needed), and the physician/clinic representative more than 30 days, but less than 180 days, prior to date of sterilization. If less than 30 days, refer to page 18b: "When does MAA waive the 30 day waiting period?" and/or section IV of the Sterilization Consent Form.

STERILIZATION CONSENT FORM

Physician or Clinic

When I first asked for the information, I was told that the decision to be sterilized is completely up to me. I was told that I could decide not to be sterilized . If I decide not to be sterilized, my decision will not affect my right to future care or treatment. I will not lose any help or benefits from programs receiving Federal funds, such as Aid to Families with Dependent Children (AFDC) or Medicaid, that I am now getting or for which I may become eligible.

I understand that the sterilization must be considered permanent and not reversible. I have decided that I do not want to become pregnant, bear children, or father children.

I was told about those temporary methods of birth control that are available and could be provided to me which will allow me to bear or father a child in the future. I have rejected these alternatives and chosen to be sterilized. I understand that I will be sterilized by an operation known as a

How to Complete the HCFA-1500 Claim Form

The HCFA-1500 (U2) (12-90) (Health Insurance Claim Form) is a universal claim form used by many agencies nationwide; a number of the fields on the form do not apply when billing the Medical Assistance Administration (MAA). Some field titles may not reflect their usage for this claim type. The numbered boxes on the claim form are referred to as fields.

Important!

General Guidelines:

- **Use only the original preprinted red and white HCFA-1500 claim forms** (version 12/90 or later, preferably on 20# paper). This form is designed specifically for optical character recognition (OCR) systems. The scanner cannot read black and white (copied, carbon, faxed, or laser printer generated) HCFA-1500 claim forms.

- **Do not use red ink pens, highlighters, "post-it notes," stickers, correction fluid or tape** anywhere on the claim form or backup documentation. The red ink and/or highlighter will not be picked up in the scanning process or will actually **black out** information. Do not write or use stamps or stickers that say, "REBILL," "TRACER," or "SECOND SUBMISSION" on claim form.

- **Use standard typewritten fonts** that are 10 c.p.i (characters per inch).
  Do not mix character fonts on the same claim form. Do not use italics or script.

- **Use upper case** (capital letters) for all alpha characters.

- **Use black** printer ribbon, ink-jet, or laser printer cartridges. **Make sure ink is not too light or faded.**

- **Ensure all the claim information is entirely contained within the proper field** on the claim form and on the same horizontal plane. Misaligned data will delay processing and may even be missed.

- **Place only six detail lines on each claim form**. MAA does not accept "continued" claim forms. If more than six detail lines are needed, use additional claim forms.

- **Show the total amount for each claim form separately**. Do not indicate the entire total (for all claims) on the last claim form; **total each claim form**.

Field **Description**

1a. **Insured's I.D. No.:** Required. Enter the Medicaid Patient (client) Identification Code (PIC) - an alphanumeric code assigned to each Medical Assistance client. This information is obtained from the client's current monthly Medical ID card and consists of the client's:

a) First and middle initials (a dash [-] *must* be used if the middle initial is not available);
b) Six-digit birthdate, consisting of *numerals only* (MMDDYY);
c) First five letters of the last name. If there are fewer than five letters in the last name, leave spaces for the remainder before adding the tie breaker; and
d) An alpha or numeric character (tiebreaker).

For example:
1. Mary C. Johnson's PIC looks like this: MC010667JOHNSB.
2. John Lee's PIC needs two spaces to make up the last name, does not have a middle initial and looks like this: J-100257LEE B.

5. **Patient's Address:** Required. Enter the address of the Medicaid client who has received the services you are billing for (the person whose name is in *field 2*.)

9a. Enter the other insured's policy or group number *and* his/her Social Security Number.

9b. Enter the other insured's date of birth.

9c. Enter the other insured's employer's name or school name.

9d. Enter the insurance plan name or the program name (e.g., the insured's health maintenance organization, private supplementary insurance).

Please note: DSHS, Welfare, Provider Services, Healthy Kids, HO or Healthy Options First Steps, and Medicare, etc., are inappropriate entries for this field.

Sample:
Jennifer Spear was seen at ABC Family Planning Clinic (MAA Family Planning Provider #7777777) on 6/12/03. She received a Physical Exam (99203) which included a Pap Test (88150). An STD was suspected, so a Wet Mount (87210) was done. Birth control options were discussed, a Pregnancy Test (84703) was done, and the client received a 6-month supply of Oral Contraceptives - Birth Control Pills (S4993). The Pap Test was sent out to an independent lab (CLIA #06E3333333). They billed the clinic their usual and customary charge of $10.00. The Wet Mount and Pregnancy Test were read onsite at the clinic. The following is a sample claim for the services this client received, including billing for the test done at the independent lab.
